## TWO-PIECE PARTICULATE SUIT

RESPIREX™

Nuclear

Pharmaceutical

The Sellprotex two piece suit is a single use garment that provides the highest level of protection against particulate contamination.

- Designed for use with breathable air supplied from an external compressed air source providing positive pressure
- Emergency breather attachment (P3 filter not supplied) - can be blower assisted
- 360° swivel airline system with adjustable waist belt
- Button fastenings at the waist for further tape sealing after donning
- Visor giving excellent vertical and horizontal lines of vision
- Integral sock booties with outer legs providing sealed protection
- Manufactured from unsupported translucent 300 micron PVC

### Specifications

Required Airflow: 120 l/m (min) to 300 l/m (max)

### Options

- Plain cuffs for tape sealing
- Permanently attached gloves
- 'O' ring cuff system
- Welders version
- Fall arrest version

### Sizing

	Small	Medium	Large	X-Large	XX-Large
Height (cm)	164-170	170-176	176-182	182-188	188-194
Chest (cm)	88-96	96-104	104-112	112-124	124-136

### Air Supply

The air flowing into the garment must conform to EN 12021:1999 Annex A. In the event that partial contamination may exist in the factory ring main from which the suit draws its air supply, a Respirex in-line filter unit should be fitted to the air system; this will prevent the ingress of contamination down to 5 microns in size from entering the garment.

### Protection

EN1073-1:1998  
Class 5 (50,000) Nominal Protection Factor (NPF)
