

FLO-POD™ HOOD

RESPIREX™

Healthcare

Pharmaceutical

Nuclear

A lightweight PVC hood for use with the Flo-Pod™ powered respirator, combining excellent particulate protection and all-round visibility with a high degree of user comfort.

- Manufactured in 150 micron PVC
- Balanced single sized design for performance and comfort
- Elasticated draw-string neck seal
- Adjustable chest strap with quick release buckle
- Low pressure balanced exhalation valves developed for maximum protection
- More comfortable than a facemask and filter
- Can be worn by users with glasses or facial hair
- Wide field of vision
- With the Flo-Pod™ removed the hood can be washed and re-used

Certification:

EN 12941:1998 +A2:2008
